AFFIDAVIT IN SUPPORT OF
AN APPLICATION FOR A SEARCH WARRANT

I, Christopher H. Chappell, being duly sworn, depose and state as follows:

INTRODUCTION

1. This affidavit is submitted in support of an application for a warrant to search the location specifically described in Attachment A, the entire premises located at 4105 Grove Ridge Drive, Durham, North Carolina 27703 (the "SUBJECT PREMISES"), a 2008 Toyota Sienna minivan, NC registration AHZ-6017, VIN: 5TDZK22C28S173239, a 2014 Ford Edge SUV, NC registration PFN-6948, VIN: 2FMDK4KC8EBB35853 (the "SUBJECT VEHICLES"); and the person of Killen Easton HERRING for contraband and evidence, fruits, and instrumentalities of violations of Title 18, United States Code, Section 2422(a) and (b), which items are more specifically described in Attachment B of this Affidavit.

2. The statements in this affidavit are based on my own investigation into this matter as well as on information provided to me by other law enforcement officers and analysts. Since this affidavit is being submitted for the limited purpose of securing a search warrant, I have not included each and every fact known to me concerning this investigation. I have set forth only the facts that I believe are necessary to establish probable cause to believe that contraband and evidence, fruits, and instrumentalities of violations of 18 U.S.C. § 2422(a) and (b), are presently located at the SUBJECT PREMISES, on the person of Killen Easton HERRING, and in the SUBJECT VEHICLES.

AFFIANT BACKGROUND

3. I am a Task Force Agent with the Federal Bureau of Investigation (FBI). I received deputation as a Special Deputy United States Marshal in 2005 for

participation in the FBI's North Carolina Cyber Crime Task Force and have been investigating computer intrusion matters, intellectual property rights violations, Internet frauds, and online child sexual exploitation matters in this capacity since April 2005. Since 2010 my case assignments have been exclusively related to online child sexual exploitation matters.

4. I have approximately 23 years of law enforcement experience and am employed as a police detective assigned to the Special Victims Unit of the Criminal Investigation Division of the Durham Police Department (DPD). I was awarded an Advanced Law Enforcement Certificate by the North Carolina Criminal Justice Education and Training Standards Commission in May 2007 and have received over 4,000 hours of law enforcement training including, inter alia over 2,000 hours specifically in the areas of the investigation of computer-related and computer-facilitated crimes, as well as computer and digital media forensic analysis. I am a Seized Computer Evidence Recovery Specialist (SCERS), having completed that training at the Federal Law Enforcement Training Center in July 2007. I have provided instruction to police and military investigators, as well as civilian network security personnel on five continents in the areas of network computer intrusions, online investigations, malware and forensic analysis of digital media. I have previously testified over a dozen times as an expert witness in the areas of computer forensics and online child sexual exploitation matters in North Carolina Superior Court for Wake and Durham Counties, as well as United States District Court in multiple jurisdictions.

5. I have been the case agent or supporting agent in numerous investigations, including investigations involving the production, distribution, and possession of child pornography. I have received specific training in the area of child

pornography and child exploitation, and have observed numerous examples of child pornography (as defined in 18 U.S.C. § 2256) in all forms of media including computer media. Moreover, I am a federal law enforcement officer who is engaged in enforcing the criminal laws, including those enumerated in Title 18 of United States Code, and I am authorized by law to request a search warrant.

STATUTORY AUTHORITY

6. As noted above, this investigation concerns alleged violations of the following statutes:

a. 18 U.S.C. 2422 (a) prohibits a person from knowingly persuading, inducing, enticing, or coercing any individual to travel in interstate or foreign commerce, or in any Territory or Possession of the United States, to engage in prostitution, or in any sexual activity for which any person can be charged with a criminal offense, or attempting to do so.

b. 18 U.S.C. § 2422 (b) prohibits a person from using, or attempting to use, the mail or any facility or means of interstate or foreign commerce, to knowingly, persuade, induce, entice, or coerce any individual who has not attained the age of 18 years, to engage in prostitution or in any sexual activity for which any person can be charged with a criminal offense.

DEFINITIONS

7. The following definitions apply to Attachment B and this Affidavit:

a. "Child pornography," as defined in 18 U.S.C. § 2256(8), is any visual depiction of sexually explicit conduct where (a) the production of the visual depiction involved the use of a minor engaged in sexually explicit conduct, (b) the visual depiction is a digital image, computer image, or computer-generated image

that is, or is indistinguishable from, that of a minor engaged in sexually explicit conduct, or (c) the visual depiction has been created, adapted, or modified to appear that an identifiable minor is engaged in sexually explicit conduct.

b. “Sexually explicit conduct,” as defined in 18 U.S.C. § 2256(2), means actual or simulated (a) sexual intercourse, including genital-genital, oral-genital, anal-genital, or oral-anal, whether between persons of the same or opposite sex; (b) bestiality; (c) masturbation; (d) sadistic or masochistic abuse; or (e) lascivious exhibition of the genitals or pubic area of any person.

c. “Visual depiction,” as defined in 18 U.S.C. § 2256(5), includes undeveloped film and videotape, data stored on computer disc or other electronic means which is capable of conversion into a visual image, and data which is capable of conversion into a visual image that has been transmitted by any means, whether or not stored in a permanent format.

d. “Minor,” as defined in 18 U.S.C. § 2256(1), refers to any person under the age of eighteen years.

e. “Child erotica,” as used herein, means materials or items that are sexually arousing to persons having a sexual interest in minors but that are not necessarily obscene or do not necessarily depict minors in sexually explicit poses or positions.

f. “Computer,” as used herein, refers to “an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device” and includes smartphones, and mobile phones (“cell phones”) and devices.¹

¹ See 18 U.S.C. § 1030(e)(1).

g. “Computer hardware,” as used herein, consists of all equipment that can receive, capture, collect, analyze, create, display, convert, store, conceal, or transmit electronic, magnetic, or similar computer impulses or data. Computer hardware includes any data-processing devices (including central processing units, internal and peripheral storage devices such as fixed disks, external hard drives, floppy disk drives and diskettes, and other memory storage devices); peripheral input/output devices (including keyboards, printers, video display monitors, and related communications devices such as cables and connections); as well as any devices, mechanisms, or parts that can be used to restrict access to computer hardware (including physical keys and locks).

h. “Computer software,” as used herein, is digital information which can be interpreted by a computer and any of its related components to direct the way they work. Computer software is stored in electronic, magnetic, or other digital form. It commonly includes programs to run operating systems, applications, and utilities.

i. “Computer passwords and data security devices,” as used herein, consist of information or items designed to restrict access to or hide computer software, documentation, or data. Data security devices may consist of hardware, software, or other programming code. A password (a string of alpha-numeric characters) usually operates what might be termed a digital key to “unlock” particular data security devices. Data security hardware may include encryption devices, chips, and circuit boards. Data security software of digital code may include programming code that creates “test” keys or “hot” keys, which perform certain pre-set security functions when touched. Data security software or code may also encrypt, compress, hide, or “booby-trap” protected data to make it inaccessible or unusable, as well as reverse the process to restore it.

j. “Internet Protocol address” or “IP address,” as used herein, refers to a unique number used by a computer or other digital device to access the Internet. IP addresses can be “dynamic,” meaning that the ISP assigns a different unique number to a computer every time it accesses the Internet. IP addresses might also be “static,” if an ISP assigns a user’s computer a particular IP address that is used each time the computer accesses the Internet.

k. “Internet Service Providers” (“ISPs”), as used herein, are commercial organizations that are in business to provide individuals and businesses access to the Internet. ISPs provide a range of functions for their customers including access to the Internet, web hosting, e-mail, remote storage, and co-location of computers and other communications equipment.

l. “Records,” “documents,” and “materials,” as used herein, include all information recorded in any form, visual or aural, and by any means, whether in handmade, photographic, mechanical, electrical, electronic, or magnetic form.

SUMMARY OF THE INVESTIGATION

8. On March 16, 2018, the Vice Division of the Fayetteville Police Department (“FPD”) undertook an anti-prostitution and human trafficking operation using undercover detectives and posting online ads on the website Backpage.com.² The advertisement was posted on March 15, 2018 at 9:05 p.m. local time, and placed

² The website Backpage.com launched in 2004 as a classified advertising site similar to Craigslist, by 2011 it was the second largest online classified site, after Craigslist. The site became notorious for its Adult Services sections, with numerous ads relating to prostitution and human trafficking, including those involving minors. In January 2017 the site removed these adult service sections but ads continued in sections for massage and women seeking men. On April 6, 2018 Backpage.com was seized by the US Department of Justice, following a 93-count indictment against seven of the site’s staff and investors.

in the Fayetteville, NC "Dating" section of Backpage under the classified ads for "Women Seeking Men" and provided a contact telephone number and link to a Facebook profile at www.facebook.com/lilsexy. The advertisement stated the poster's age was 24 and that the poster was located in Fayetteville, North Carolina. Two photos of an obviously adult female wearing lingerie were posted with the ad, along with typed text stating "Please NO... CHEAP GUYS PRIVATE CALLS EXPLICIT TALK & I DO NOT SEND PICTURES...THESE ARE MINE!!!" An image of the advertisement placed on Backpage follows:

9. Detective K. Lucetti, assigned to the Vice Division and operating in an undercover capacity (UC), received a text message ("SMS") on the number posted on the Backpage ad from a target telephone number of 980-206-4446 beginning at approximately 11:42 a.m. local time. The area code and exchange for this number traditionally belongs to the Troutman, North Carolina area of Iredell County. The message related to the undercover advertisement that had been posted and the conversation is excerpted below:

980-206-4446: Hi lilsexy how are you

UC: *Heyyy I'm good*

980-206-4446: That's good

980-206-4446 What's your donation for hour

UC: *40 qv 80hh 160 hr³*

980-206-4446: Gfe?⁴

UC: *Yes*

980-206-4446: K

³ The abbreviations used are common to Backpage adult services and online prostitution sites in general: qv refers to "quick visit" (approximately 15 minutes with an escort); hh refers to "half hour" with an escort; hr refers to one hour with an escort.

⁴ GFE: "Girl Friend Experience" commonly understood parlance in the context of escort ads to mean an affection oriented escort, e.g., shows up and acts like she wants to be there, stays and provides services for the full hour, may perform fellatio without requiring a condom be worn.

980-206-4446: Are you affiliated with law enforcement in any way?

UC: *No r u*

980-206-4446: No not at all

980-206-4446: K good

UC: *When u coming*

980-206-4446: So I'd actually be willing to do more than 160 if you can do something for me

UC: *And what's that*

980-206-4446: I wanna get with you and a super young little girl. If you arrange it I'll give you a lot more than 160

UC: *I have a friend who has a 9 year old daughter*

980-206-4446: Is she small and skinny?

UC: *Yea*

980-206-4446: How tall is she?

UC: *Idk short? She ain't my kid*

980-206-4446: K that's fine

UC: *When u need her*

980-206-4446: Can you get her later this afternoon

UC: *Yea like at 1*

10. At approximately 2:27 P.M. local time, the FPD undercover detective sent a message to 980-206-4446 indicating that UC had the child referenced in the earlier conversation. There was no subsequent response from the 980-206-4446. On March 20, 2018, at approximately 8:59 a.m. local time, UC had the following exchange with 980-206-4446:

UC: *Good morning*

980-206-4446: *Gm*

980-206-4446: *What's up*

UC: *Not a whole lot*

UC: *Tryin to make some money today*

UC: *U never txted me back the other night*

11. No further response was received from 980-206-4446. The FPD determined that the target number was a virtual phone number associated with a smartphone application called Burner. This application was created by the company Ad Hoc Labs, Inc., and describes itself as follows:

Burner is your "other" number – a smart privacy layer for the smartphone era, giving users the power to take control of their communications and personal data. Enabling users to obtain and manage additional phone numbers for voice, SMS, and MMS communications, Burner is fast, safe and private. Burner lets users get as many numbers as they want, use

*each as a private line on an iPhone or Android phone, and keep numbers indefinitely or 'burn' numbers they no longer need. Burner is made by Ad Hoc Labs, Inc., a fast-growing startup based in Los Angeles, California. Our team is passionate about the idea that real-time communications should be more socially aware and privacy oriented, and we believe Burner is just the beginning.*⁵

12. The FPD served a state search warrant on Ad Hoc Labs for basic subscriber information associated with 980-206-4446, as well as any stored contents of communications related to this Burner app account. According to the reply from Ad Hoc Labs received on March 22, 2018, 980-206-4446 was associated with a Burner application account originally created on October 20, 2016 and installed on an Android device with the phone number of 919-215-5743. The account was associated with two active Burner numbers as well as two previously used Burner numbers as follows:

- a. 559-407-0663: activated on 8/11/2017, designated as "Main" by user [area code and exchange is typically in Firebaugh, Fresno County, CA]
- b. 980-218-0094: activated on 11/29/2017, discarded on 2/26/2018 [area code and exchange is typically in Charlotte, Mecklenburg County, NC]
- c. 310-237-6053: activated on 1/13/2018, discarded on 2/26/2018 [area code and exchange is typically in Los Angeles, Culver City area, CA]

⁵ <https://www.burnerapp.com/about/>

d. 980-206-4446: activated on 2/26/2018, designated as "Craigslist" by user [area code and exchange is typically in Troutman, Iredell County, NC]

13. The associated telephone number for the Burner application, 919-215-5743, is assigned to T-Mobile. The FPD served a state search warrant for the subscriber information, call logs, and stored cell tower information correlated to the Call Detail Record ("CDR") for 919-215-5743. On April 10, 2018, T-Mobile provided records indicating that the subscriber associated with the T-Mobile account was Killen E. HERRING, home address of 4105 Grove Ridge Drive, Durham, NC, 27703. This account was activated on January 22, 2015 and was currently active.

14. Cell tower entries corresponding to the CDR were reviewed for the date of March 16, 2018. Incoming and outgoing telephone calls for 919-215-5743 between 4:50 p.m. on March 15, 2018 and 2:25 p.m. on March 16, 2018 utilized a cell phone tower located at 298 Nobel Drive, Durham, NC. This tower site is less than one-half of a mile from the listed home address of the subscriber, 4105 Grove Ridge Drive, Durham, and located within the Middle District of North Carolina. A map of the area surrounding the subject premises was generated on Google Maps, with directions from the subject premises to the address of the T-Mobile cell site. A screen capture of the resulting map is incorporated herein:

15. The T-Mobile CDR also showed a number of entries between 10 p.m. local time on March 4, 2018 and 6:36 p.m. on March 5, 2018 in which cell towers located in Boston, Massachusetts were used in various incoming and outgoing calls. When this time frame was compared with the activity on the Burner application, messages as well as voice calls were directed to approximately 75 unique telephone numbers. A communication did not ensue in every instance, however when exchanges did occur, the conversations concerned payment for sexual services substantially similar, if not identical, to the conversation documented previously with the FPD undercover detective. In over 30 of the conversations the subject stated that he wanted to have sex with a “super young little girl” and could pay more than the asking price for one

hour of the escort's time. In at least three cases during this time frame, the subject specifically stated that he was looking for "a preteen girl."

16. The cell tower primarily used by the user of 919-215-5743 in Boston, believed to be HERRING, was located at the top of the Copley Square Hotel, 47 Huntington Avenue, Boston, MA 02116. In fifteen of the conversations during this time frame, the subject indicates that he is staying at the "Marriott Copley Place" or "Marriott Copley near Fenway." That hotel is located at Boston Marriott Copley Place, 110 Huntington Avenue, Boston, MA 02116, and is less than one-tenth of a mile southwest of the aforementioned cell tower.

17. Review of the Burner application documents for telephone number 980-206-4446 showed a conversation on March 13, 2018 between the subject and telephone number 817-775-9693. The conversation is initiated by the user of 980-206-4446, believed to be HERRING, with the message, "Hey I saw your ad on CL. Are you ladies still looking for a daddy?" After the conversation ensues, the user of 980-206-4446 states his intention as, "I want to fuck a child with you. I have a young little girl here that has not had sex with a woman before. Do you want to fuck her with me?" He then states, "Send me a picture and I will send a picture of my little girl." A photo is then transmitted from the 817-775-9693 user of a close-up selfie of an adult female whose breasts have been exposed from a grey Calvin Klein brassiere. After this image is received, the user of 980-206-4446 transmits a photo of a female child with blonde hair, wearing a blue hair bow, light blue sleeveless romper shorts, and pink flip-flop sandals. The child has a floral patterned handbag hanging from her left arm and is holding a pink smart phone taking a selfie in what appears to be a dressing room with mirrors on three sides. This photo is captioned with the word, "Hey." This photo subsequently determined to be of American dancer and

actress Mackenzie Francis Ziegler (DOB: 06/2004), and was posted when the child was approximately 10-11 years old. This child appeared on the Lifetime network reality dance show called *Dance Moms* from 2011 – 2016, and the particular image is available online. The user of 817-775-9693 then sends the message, “let me know after you verify your info,” and no further messages appear to or from this user.

18. The user of 980-206-4446 transmitted this same image of a female child on March 13, 2018 during a conversation with the user of telephone number 201-540-4609. The user of 980-206-4446, believed to be HERRING, initiated this conversation with the message, “Hey I saw your ad on CL [*Craigslist*].” After a conversation ensues, the subject asks, “I have a child that wants to play with us. She's really young and tiny, but has not had sex with a woman before. Do you want to fuck her with me?” The subject then transmits the aforementioned image of Ziegler. The 201-540-4609 user responds with “my page is <http://localsafehookups.com/verified> they do a simple check to be sure you're not some kinda criminal or anything haha” and instructions for the subject to log into that site. User of 201-540-4609 then advises: “once ur in locate me brnaasxy let me know your user name so i add u and it will tell me that you're cool to meet with'.. alot of crazies on CL!” Approximately 14 minutes after that message was sent, the user sends, “hun it is just to verifie {sic} yourself. My friend use this all the time... Am going to put on something naughty for you.. :* I want u to look at how nice my kitty is when you're fucking me!!” The user of 980-206-4446 then replies, “I wanna know if you'll fuck a little girl with me first” and has no further communications that were captured on the Burner CDR.

19. In 67 instances of the text conversations for the Burner application telephone number 980-206-4446 between 02/26/2018 and 03/20/2018, there were specific references to “getting with a super young little girl” in messages sent by the

user of 980-206-4446. The majority of these instances involve the user of 980-206-4446 offering to pay a suspected prostitute more than the normal rate if she can acquire a "super young little girl" for the user of 980-206-4446. A complete listing of the call detail record provided by the Burner application for the period between 02/26/2018 and 03/20/2018 for telephone number of 980-206-4446 has been attached to this affidavit as Exhibit A.

20. In 25 instances of the text conversations for the Burner application telephone number 559-407-0663 between 01/13/2018 and 03/06/2018, there were specific references to "getting with a super young little girl" in messages sent by the user of 559-407-0663. A complete listing of the call detail record provided by the Burner application for the period between 01/13/2018 and 03/06/2018 for telephone number of 559-407-0663 has been attached to this affidavit as Exhibit B.

21. A state court order served upon Charter Communications on April 20, 2018, revealed that the SUBJECT PREMISES of 4105 Grove Ridge Drive in Durham had an active account for Internet Services. The subscriber name at this address was listed by Charter as Killen Herring, with a contact telephone number of 919-215-5743.

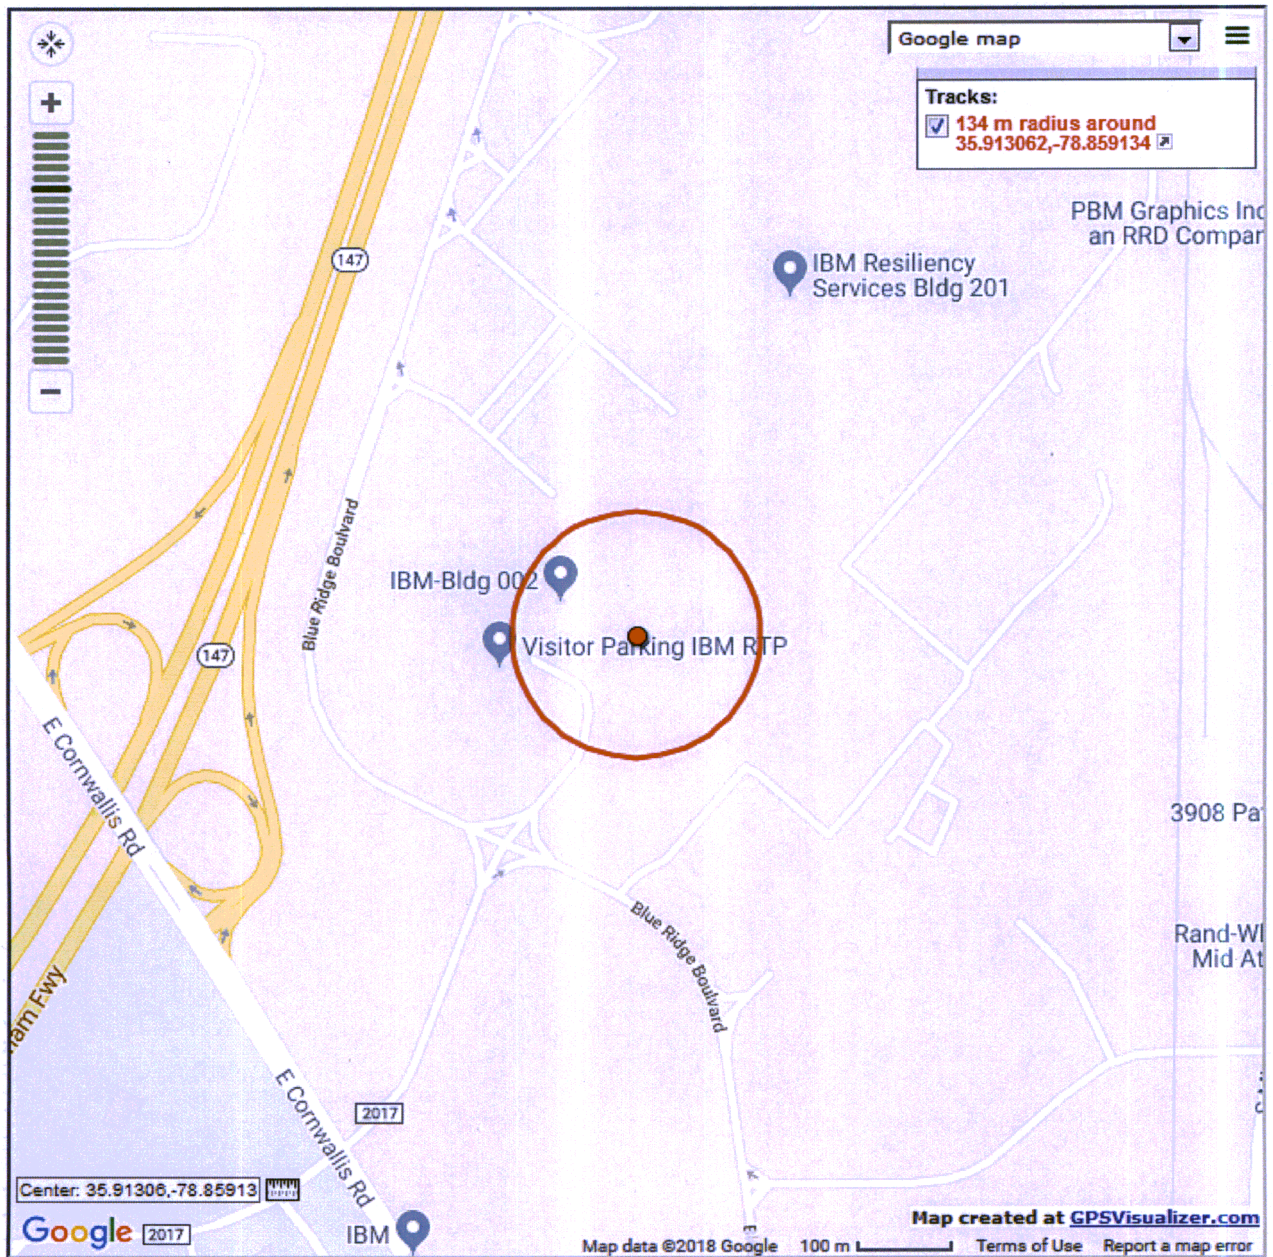

22. According to Durham County Deed Book 7530, Page 209, 4105 Grove Ridge Drive in Durham was sold on June 20, 2014 to Killen and Holly HERRING. This property is described as Lot 31, Phase 1, Section 2 of the Grove Park Subdivision, as recorded in Durham County Plat Book 119, page 186.

23. According to records maintained by the North Carolina Division of Motor Vehicles ("DMV"), a driver license was issued to Killen Easton HERRING, date of birth: 09/17/1982, on August 12, 2011 and is presently active. The home address

listed on the DMV record is 4105 Grove Ridge Drive in Durham. The North Carolina DMV also lists Holly Herring, date of birth: 11/11/1986 as having a valid driver license, also showing the same address. The vehicles registered by the DMV at the SUBJECT PREMISES are listed as solely in the name of Killen Easton HERRING. They consist of the SUBJECT VEHICLES: a 2008 Toyota Sienna minivan, NC registration AHZ-6017, VIN: 5TDZK22C28S173239; and a 2014 Ford Edge SUV, NC registration PFN-6948, VIN: 2FMDK4KC8EBB35853. After learning the identity of the subscriber from T-Mobile, the FPD performed surveillance of the subject premises. HERRING has been observed by FPD to operate the Ford Edge during typical working hours, and this vehicle has also been absent from the home's driveway during periods of time based on the Pen Register that HERRING's phone has been active on cell sites in Raleigh and Research Triangle Park in the time between late April 2018 until May 30, 2018.

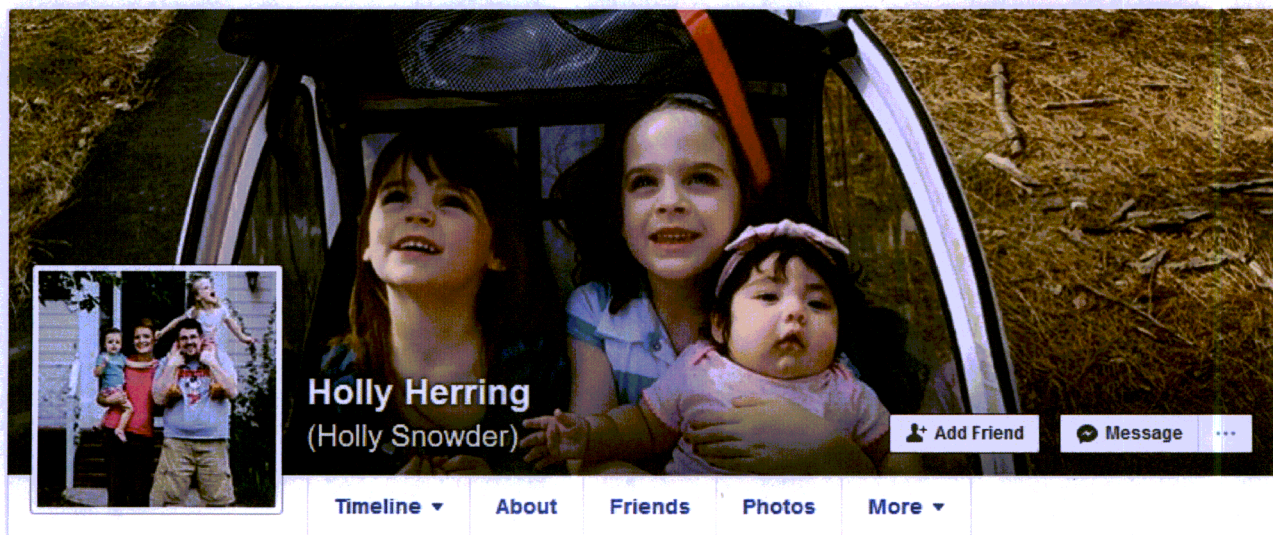

24. Open source searches on the public Internet revealed a Facebook page for Killen HERRING at <https://www.facebook.com/profile.php?id=10136178>. The page was last updated by a post on April 20, 2017. The user profile photo for this user depicts the same person listed by North Carolina DMV records as Killen Easton HERRING. Among other things, this Facebook profile indicates that Killen HERRING works as a product manager at IBM. On May 23, 2018, on-going results of the State Pen Register Order for the T-Mobile phone identified in connection with the Burner App showed that at approximately 10:07 AM Eastern Time, the device was within 134 meters of the coordinates 35.913062,-78.859134. Entering these coordinates to generate a Google Map, with a radius of 134 meters around those

coordinates, results in the following map:

25. Also listed on the Facebook profile for Killen HERRING is that he is married to Holly Herring. An Internet hyperlink to the Facebook profile of <https://www.facebook.com/holly.herring.35> is shown for “Holly Herring (Holly Snowder)” on Killen HERRING’s profile. The photos of this user depict the same person listed by DMV records as Holly Herring.

26. The Facebook profile for Holly Herring also shows a smaller photo of Killen HERRING, posed in front of what appears to be the front door of their residence at 4105 Grove Ridge Drive in Durham, and they are each holding a young child. This smaller photo is inset into a larger sized photo that depicts two female children seated inside a trailer of the type normally towed behind a bicycle, with one of the girls holding an infant female child. This photo was updated to be the Facebook “cover photo” of Holly Herring on March 28, 2018.

27. According to the post history on this profile page, the smaller inset photo was the previous profile cover photo of Holly Herring circa August 29, 2015, and appears to depict the same two girls, along with Holly and Killen HERRING, standing in front of the main door to the residence at 4105 Grove Ridge Drive in

Durham. From reviewing the posts, it appears that one child was born in 2012 and the younger child was born in 2014.

COMPUTERS, ELECTRONIC STORAGE, AND FORENSIC ANALYSIS

24. As described in Attachment B, this application seeks permission to search for records that might be found at the SUBJECT PREMISES, on the person of Killen Easton HERRING, and in the SUBJECT VEHICLES in whatever form they are found. One form in which the records are likely to be found is data stored on a computer's hard drive or other storage media. Thus, the warrant applied for would authorize the seizure of all electronic storage media or, potentially, the copying of electronically stored information, all under Rule 41(e)(2)(B).

25. I submit that if a computer or storage medium is found on the SUBJECT PREMISES, person of Killen Easton HERRING, or in the SUBJECT VEHICLES, there is probable cause to believe those records will be stored on that computer or storage medium, for at least the following reasons:

- a. Based on my knowledge, training, and experience, I know that computer files or remnants of such files can be recovered months or even years after they have been downloaded onto a storage medium, deleted, or viewed via the Internet. Electronic files downloaded to a storage medium can be stored for years at little or no cost. Even when files have been deleted, they can be recovered months or years later using forensic tools. This is so because when a person "deletes" a file on a computer, the data contained in the file does not actually disappear; rather, that data remains on the storage medium until it is overwritten by new data.
- b. Therefore, deleted files, or remnants of deleted files, may reside in free space

or slack space—that is, in space on the storage medium that is not currently being used by an active file—for long periods of time before they are overwritten. In addition, a computer's operating system may also keep a record of deleted data in a “swap” or “recovery” file.

- c. Wholly apart from user-generated files, computer storage media—in particular, computers' internal hard drives—contain electronic evidence of how a computer has been used, what it has been used for, and who has used it. To give a few examples, this forensic evidence can take the form of operating system configurations, artifacts from operating system or application operation, file system data structures, and virtual memory “swap” or paging files. Computer users typically do not erase or delete this evidence, because special software is typically required for that task. However, it is technically possible to delete this information.
- d. Similarly, files that have been viewed via the Internet are sometimes automatically downloaded into a temporary Internet directory or “cache.”

26. Based upon my training and experience and information related to me by agents and others involved in the forensic examination of computers, I know that computer data can be stored on a variety of systems and storage devices, including external and internal hard drives, flash drives, thumb drives, micro SD cards, SD cards, DVDs, gaming systems, SIM cards, cellular phones capable of storage, floppy disks, compact disks, magnetic tapes, memory cards, memory chips, and online or offsite storage servers maintained by corporations, including but not limited to “cloud” storage. I also know that during the search of the premises it is not always possible to search computer equipment and storage devices for data for a number of reasons, including the following:

- a. Searching computer systems is a highly technical process which requires specific expertise and specialized equipment. There are so many types of computer hardware and software in use today that it is impossible to bring to the search site all of the technical manuals and specialized equipment necessary to conduct a thorough search. In addition, it may also be necessary to consult with computer personnel who have specific expertise in the type of computer, software application, or operating system that is being searched;
- b. Searching computer systems requires the use of precise, scientific procedures which are designed to maintain the integrity of the evidence and to recover "hidden," erased, compressed, encrypted, or password-protected data. Computer hardware and storage devices may contain "booby traps" that destroy or alter data if certain procedures are not scrupulously followed.;
- c. The volume of data stored on many computer systems and storage devices will typically be so large that it will be highly impractical to search for data during the execution of the physical search of the premises; and
- d. Computer users can attempt to conceal data within computer equipment and storage devices through a number of methods, including the use of innocuous or misleading filenames and extensions. For example, files with the extension ".jpg" often are image files; however, a user can easily change the extension to ".txt" to conceal the image and make it appear that the file contains text. Computer users can also attempt to conceal data by using encryption, which means that a password or device, such as a "dongle" or "keycard," is necessary to decrypt the data into readable form. In addition, computer users can conceal data within another seemingly unrelated and innocuous file in a process called "steganography." For example, by using steganography a computer user can

conceal text in an image file which cannot be viewed when the image file is opened. Therefore, a substantial amount of time is necessary to extract and sort through data that is concealed or encrypted to determine whether it is contraband, evidence, fruits, or instrumentalities of a crime.

- e. Based on my own experience and my consultation with other agents who have been involved in computer searches, searching computerized information for contraband, evidence, fruits, or instrumentalities of a crime often requires the seizure of all of a computer system's input and output peripheral devices, related software, documentation, and data security devices (including passwords), so that a qualified computer expert can accurately retrieve the system's data in a laboratory or other controlled environment. There are several reasons that compel this conclusion:
- f. The peripheral devices that allow users to enter or retrieve data from the storage devices vary widely in their compatibility with other hardware and software. Many system storage devices require particular input/output devices in order to read the data on the system. It is important that the analyst be able to properly re-configure the system as it now operates in order to accurately retrieve the evidence listed above. In addition, the analyst needs the relevant system software (operating systems, interfaces, and hardware drivers) and any applications software which may have been used to create the data (whether stored on hard drives or on external media), as well as all related instruction manuals or other documentation and data security devices; and
- g. In order to fully retrieve data from a computer system, the analyst also needs all magnetic storage devices, as well as the central processing unit (CPU). Further, the analyst needs all the system software (operating systems or

interfaces, and hardware drivers) and any applications software that may have been used to create the data (whether stored on hard drives or on external media) for proper data retrieval.

CONCLUSION

27. Based on the foregoing, there is probable cause to believe that the federal criminal statutes cited herein have been violated, and that the contraband, property, evidence, fruits and instrumentalities of these offenses, more fully described in Attachment B, are located at the SUBJECT PREMISES described in Attachment A, on the person of HERRING, and in the SUBJECT VEHICLES. I respectfully request that this Court issue a search warrant for the SUBJECT PREMISES described in Attachment A, the person of HERRING, and the SUBJECT VEHICLES authorizing the seizure and search of the items described in Attachment B.

| 03/13/2018 13:24 | 03/13/2018 09:24 | text | Hey babe |
| | | | Hi, you gave me your number on craigslist. Its great to talk to someone who is searching for the same thing that I am. I guess I should tell you a little about myself, my name is Chloe, I am attractive and in great shape, open minded and like to dance. I have just been living here for a couple weeks, I'm still getting to know the area. I just got out of a relationship and do not want to get into another, I'm just searching for one man for repeated no strings encounters. I'm sure you have the same horror stories about craigslist dating, for my safety I created an account on NeverCommit.com/Chloe5381 with a couple more photos and info. We can talk on there. I'm sending you a pic right now, if you like it I guess I will be hearing from you. |

Hi baby
?
Hey what's your donation for hour
Hi
Hi shonta
What's your donation for hour
hey hon what can I do for you
Hi drea
Have a good night
I swear I'm not a cop
Hi baby
I wanna get with you and a super young little girl. If you can make it happen, I'll do a lot more than 200
Like what
So I'd actually be willing to do more than 200 if you can do something for me
K good
What if I can find the girl. You up for a three way?
No you
No not at all
In
I wanna get with you and a super young little girl. If you can make it happen I'll do a lot more than 200
Are you affiliated with law enforcement in any way?
In or out
You police
Gtfoh u sick fuck
What's that
SurebY' dYp—
Gfe?

ATTACHMENT B

The following materials, which constitute evidence of the commission of a criminal offense, contraband, the fruits of crime, or property designed or intended for use or which is or has been used as the means of committing a criminal offense, namely violations of 18 USC § 2422(a) and (b):

1. Computers or storage media used as a means to commit the violations described above.
2. For any computer or storage medium whose seizure is otherwise authorized by this warrant, and any computer or storage medium that contains or in which is stored records or information that is otherwise called for by this warrant (hereinafter, "COMPUTER"):
 - a. evidence of who used, owned, or controlled the COMPUTER at the time the things described in this warrant were created, edited, or deleted, such as logs, registry entries, configuration files, saved usernames and passwords, documents, browsing history, user profiles, email, email contacts, "chat," instant messaging logs, photographs, and correspondence;
 - b. evidence of software that would allow others to control the COMPUTER, such as viruses, Trojan horses, and other forms of malicious software, as well as evidence of the presence or absence of security software designed to detect malicious software;
 - c. evidence of the lack of such malicious software;
 - d. evidence indicating how and when the computer was accessed or used to determine the chronological context of computer access, use, and events relating to the crimes under investigation and to the computer user;

ATTACHMENT B

- e. evidence of the attachment to the COMPUTER of other storage devices or similar containers for electronic evidence;
 - f. evidence of programs (and associated data) that are designed to eliminate data from the COMPUTER;
 - g. evidence of the times the COMPUTER was used;
 - h. passwords, encryption keys, and other access devices that may be necessary to access the COMPUTER;
 - i. documentation and manuals that may be necessary to access the COMPUTER or to conduct a forensic examination of the COMPUTER;
 - j. records of or information about Internet Protocol addresses used by the COMPUTER;
 - k. records of or information about the COMPUTER's Internet activity, including firewall logs, caches, browser history and cookies, "bookmarked" or "favorite" web pages, search terms that the user entered into any Internet search engine, and records of user-typed web addresses revealing an interest in sexual activity with minors and/or the identity of the computer user.
3. Records, information, and items relating to violations of the statutes described above in the form of:
- a. Records and information referencing or constituting communications to arrange sexual activity in exchange for money, including with minors;
 - b. Records and information referencing or revealing the commission of sexual activity in exchange for money, including with minors;
 - c. Records and information referencing or revealing sexual activity with or sexual interest in minors and/or prostitutes, including information that could be used to identify an such minor and/or prostitute;

ATTACHMENT B

- d. Records and information reverencing or revealing the sexual exploitation of children, including communication with minors of a sexual nature;
 - e. Records and information referencing Backpage.com, Craigslist, or other classified services;
 - f. Records and information referencing or revealing the use the Burner application or other virtual telephone applications;
4. During the course of the search, photographs of the searched premises may be taken to record the condition thereof and/or the location of items therein.

As used above, the terms “records” and “information” includes all forms of creation or storage, including any form of computer or electronic storage (such as hard disks or other media that can store data); any handmade form (such as writing); any mechanical form (such as printing or typing); and any photographic form (such as microfilm, microfiche, prints, slides, negatives, videotapes, motion pictures, or photocopies).

The term “computer” includes all types of electronic, magnetic, optical, electrochemical, or other high speed data processing devices performing logical, arithmetic, or storage functions, including desktop computers, notebook computers, mobile phones, tablets, server computers, and network hardware.

The term “storage medium” includes any physical object upon which computer data can be recorded, including external and internal hard drives, flash drives, thumb drives, SD cards, DVDs, gaming systems, SIM cards, cellular phones capable of storage, floppy disks, compact discs, magnetic tapes, memory cards, memory chips, and other magnetic or optical media.
